

30th MLAIC World Championships 2024

Proposal

CNDA is proud to propose its candidacy for the 30th MLAIC World Championships to the Delegate Meeting, since after the cancellation of the European 2020, due to the Covid pandemic, we believe that it's time to return to Italy with a MLAIC Event that is missing to us since 2007.

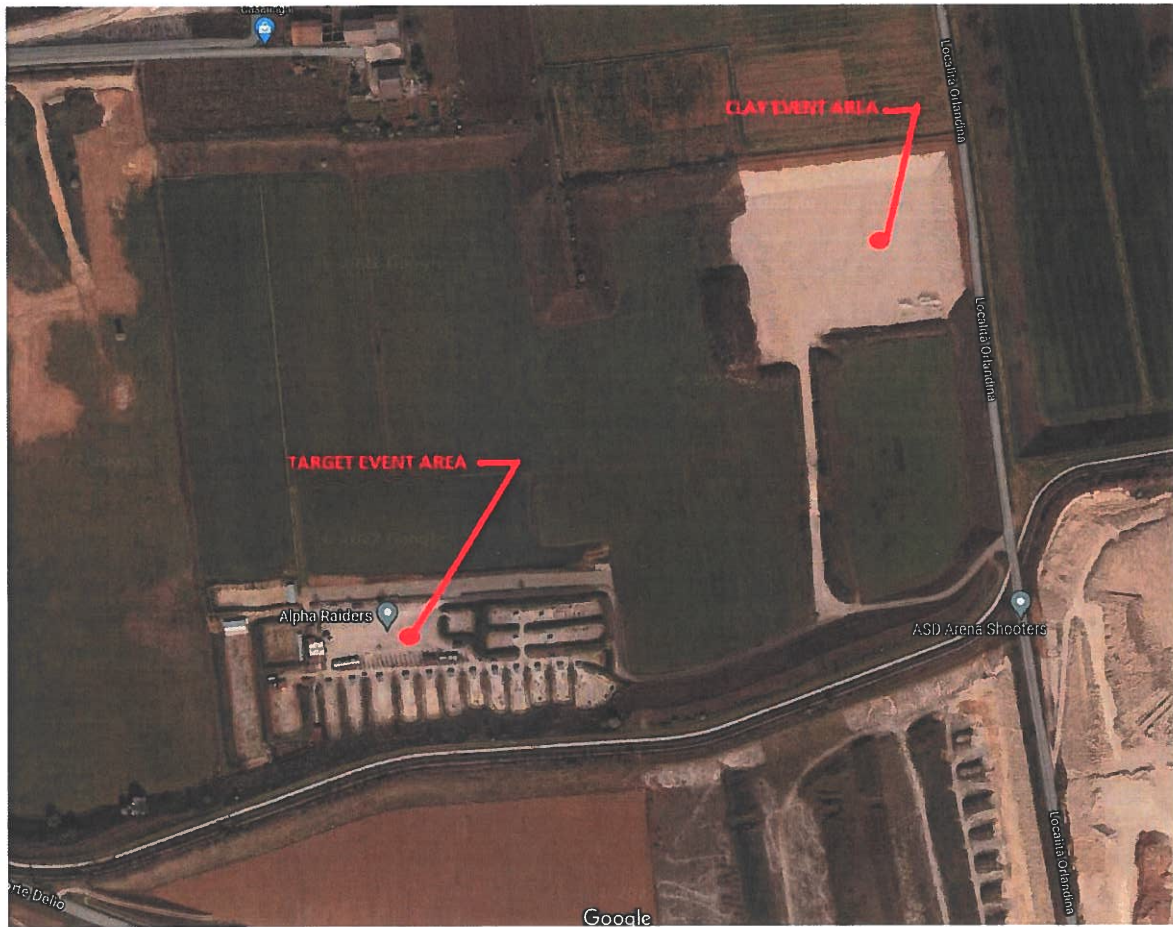

For this reason, we agreed with the shooting range of Valeggio sul Mincio.

Well positioned in the earth of the Padana Valley, few steps from Brescia and Verona, and their related Airports (Montichiari e Villafranca), the Valeggio Shooting Range it's easily reachable from any direction, and its position south to the Garda Lake it's highly relevant for historical and naturalist point of view. Garda Lake, Brescia, Verona, Valeggio sul Mincio as well, Solferino, San Martino della Battaglia, Pastrengo, are all turistic and historical sites to appreciate during your stay there.

The existing shooting range host since years the MLAIC GP of Italy, and other CNDA qualifications events, other than the 1st MLAIC Postal Match 2021.

It is positioned inside a sand cave of about 50.000,00 square metres, with sand banks of about 15 mts high, well divided for different kind of shooting: IDPA, IPSC, CNDA, but also for Police and Military trainings.

Actually, only for Muzzle Loading purpose, it has 20x25mts - 8x50mts – 10x100mts and of a wide free space (see the map) where we would like to create 2 shotgun ranges.

We are anyway planning to increase to stands potentiality with a project that should carry the Range at 2024 to at least: 24x25 mts – 16x50mts – 12x100mts.

Plus 2 shotgun fields!

This project preview a direct participation of CNDA in the business plan with a consistent investment, partly through sponsor, but mostly directly.

Following some photos of the actual situation of the Shooting Range.

Shooting range at 25 meters

Shooting rage at 50 meters

Shooting range at 100 meters
